# NIIMBOT M3

3-inch HD Thermal Transfer Smart Label Printer

NIIMBOT 精臣

New HD experience  
Long-lasting results, improved compatibility

The NIIMBOT M3 Portable Smart Label Printer's thermal transfer technology ensures that labels can last 8-10 years without fading, as evidenced by authoritative tests. The large paper compartment is compatible with various label paper sizes, making the M3 ideal for a wide range of applications, including communications, offices, manufacturing, medical experiments, jewelry tags, etc.

## 1 Label printing, Easy for beginners.

1st

Install the ribbon

2nd

Load the paper

3rd

Connect to the app and edit the label

4th

Print and use

THE SIMPLER, THE BETTER

Trusted by more than 12 million users around the world  
Simple yet efficient, professional editing software

### 1 Smart input, efficient editing

Supports input methods such as code scanning, photos, speech to text, etc.

Scan the code to print

Take photos and print

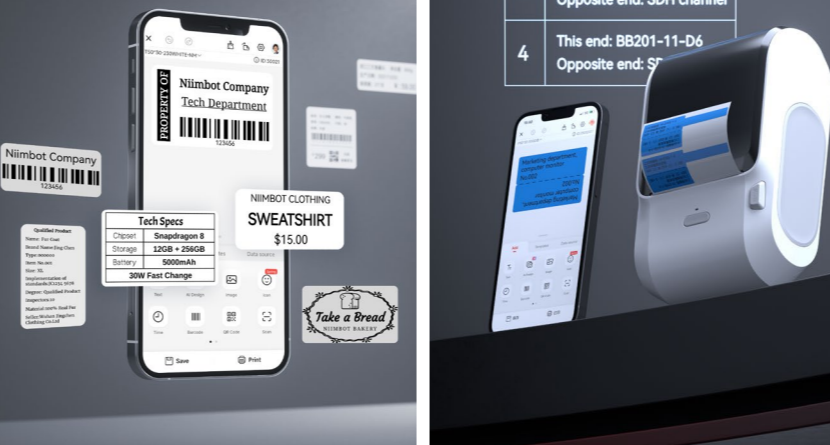

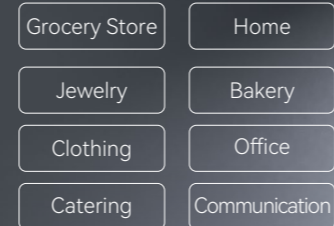

Speech-to-text

### 2 16,000+ industry templates

Easier editing, no formatting required

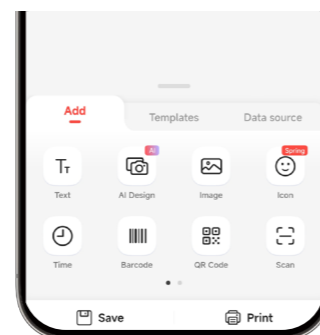

16000+

### 3 Batch printing for increased efficiency

Supports importing data sources or Excel files, smart sorting and formatting, and one-click printing

1	This end: BB201-11-D3 Opposite end: SDH channel
2	This end: BB201-11-D4 Opposite end: SDH channel
3	This end: BB201-11-D5 Opposite end: SDH channel
4	This end: BB201-11-D6 Opposite end: SDH channel

Wide range of materials, custom editing

Supports barcodes, QR codes, serial numbers, tables, borders and more

THE SIMPLER, THE BETTER

## 2 Versatile, customizable labels

Supports 20-78 mm wide labels, with customizable materials, colors and dimensions

Communications

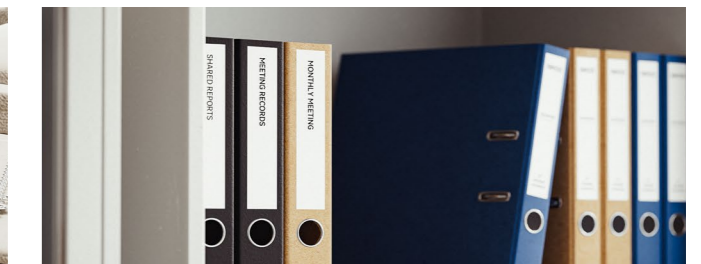

Medical experiments

Industrial manufacturing

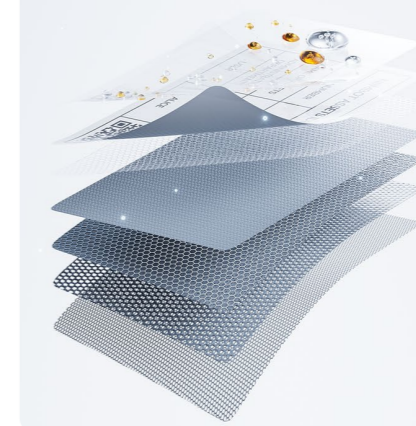

Jewelry and accessories

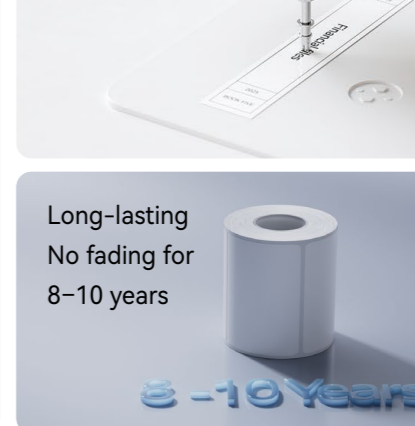

Enterprises/offices

## 3 High-quality, durable labels that are easy to use

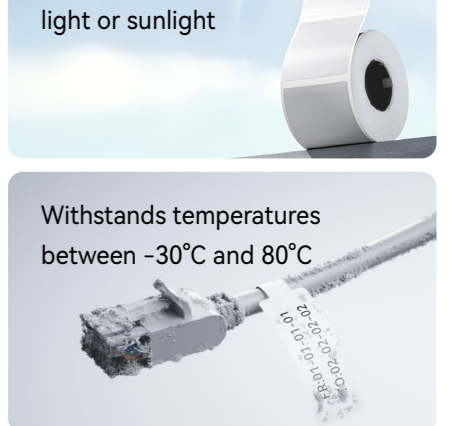

Resistant to water, oil, alcohol and other chemicals

Scratch-resistant and durable

No fading when exposed to light or sunlight

Long-lasting  
No fading for 8-10 years

Withstands temperatures between -30°C and 80°C
